

Senior Consultant in EU funding

In a few short years, Euronovia has become one of the top experts in EU funding programmes. With **10 consultants** based in Paris and the South of France, we bring our clients the multisectorial expertise they need, associated with the agility of a **young and dynamic structure**.

Our consultants support the grant application of around **fifty projects** each year (Horizon Europe, LIFE, Erasmus+), with a success rate **3 times above the EU average**. Euronovia is also a **partner in 7 European projects** on communication and dissemination of results, as well as project management. We also organise trainings for public and private actors on EU grant application and project management.

In the context of our growth, we are hiring a Senior Consultant, particularly on the **research and innovation programme, Horizon Europe**.

Are you looking for a new challenge in European funding in a dynamic environment? Come and join us!

TASKS

Support to EU grant application (Horizon Europe, LIFE, Erasmus+, etc.)

- Analysis of the call
- Definition of the concept and project objectives with the coordinator
- Support to the structuration of the project
- Support to writing
- Consortium management

Support to communication and dissemination of project results

- Writing of the Plan for Communication and Dissemination (incl. definition and follow-up of KPIs)
- Updating the project website
- Community management
- Communication material
- Participation to events etc.

Deliver trainings on EU programmes

- Grant application
- Project management

You will be working in pairs on the following projects:

- FLOATECH (2021-2024) aims to increase the technical maturity and the cost competitiveness of floating offshore wind energy.
- SHORE (2023-2026) will mobilise schools to implement the objectives of the Mission Ocean.

PROFILE

- Master's degree on EU project management or equivalent
- 5-year experience minimum on EU grant application
- Writing skills in French and English
- Relational skills
- Adaptability, organisation and rigour
- Team work and networking
- Expertise on the EIC would be an asset

WORKING ENVIRONMENT

You will join a motivated team with a real diversity of missions, in a progressive and rewarding environment (telecommuting 2 days a week, participation in transportation costs, days off...).

Desired start date is 1st of May 2023. Position preferably based in Paris or Toulouse.

HOW TO APPLY?

Applications (**CV + a 3min maximum video** describing your motivations would be a plus) to be sent **before 31 January 2023** to:

Virginie Robin
v.robin@euronovia.eu

Interviews will take place in French/English in Paris. A practical exercise will be sent to candidates.

Euronovia is committed to supporting and promoting equality, diversity and inclusion. We encourage applications from a variety of backgrounds, which we will select through an open and transparent recruitment process.
